AI/ML Enthusiast — Data Science & Cybersecurity — B.Tech CSE (AIML)

Professional Summary

Final-year B.Tech Computer Science & Engineering (AIML) student with hands-on experience in Python, data analytics, and AI integration using Gemini and Claude APIs. Skilled in building AI-powered applications including resume analyzers, fraud detection systems, and educational assistants. Passionate about Data Science, Machine Learning, and Cybersecurity with active participation in hackathons and technical training programs.

Career Objective

Seeking an entry-level role in Data Science, Machine Learning, or Cybersecurity where I can apply analytical thinking, technical skills, and problem-solving abilities while continuously learning and contributing to organizational growth.

Education

B.Tech in Computer Science & Engineering (AIML)	2023 – 2027
United College of Engineering and Research, Prayagraj	CGPA: 8.13 / 10
ISC (Class XII)	2023
St. Mary's Convent Inter College, Prayagraj	83.8%
ICSE (Class X)	2021
St. Mary's Convent Inter College, Prayagraj	91.0%

Technical Skills

Programming Languages	Python, Java, C/C++, HTML
Data Science & Analytics	Data Cleaning, Data Preprocessing, EDA, NumPy, Pandas, Matplotlib, Seaborn, Basic Machine Learning
AI & API Integration	Gemini 1.5 API, Claude AI API, Multi-agent Architecture, RAG, FAISS
Web & App Development	React, Vite, FastAPI, Streamlit, Flutter, Dart
Databases	SQL, MySQL
Cybersecurity	Fundamentals of Cybersecurity (IBM Certified)
Tools & Platforms	Jupyter Notebook, Google Colab, Git, GitHub, VS Code, LeetCode
Soft Skills	Quick Learner, Team Collaboration, Event Coordination

Work Experience & Training

Data Science & Analytics Summer Training	Aug – Sep 2024
Vital Skills / Techkriti IIT Kanpur	
- Completed a 60-hour offline training program associated with Techkriti IIT Kanpur. - Worked on Python-based data analysis, preprocessing, EDA, and machine learning models. - Gained practical exposure to NumPy, Pandas, Matplotlib, Seaborn, and Scikit-learn.	
Cybersecurity Virtual Internship (PBEL / IBMCEP)	Aug 2025
IBM Developer Skills Network	
- Completed project-based virtual internship focused on cybersecurity fundamentals. - Learned network security, threat analysis, and IBM security tools. - Successfully earned IBM certification upon completion.	

Projects

ExamCoach	Python, Streamlit, FastAPI, Gemini 1.5, FAISS
- Built an AI-powered study assistant for competitive Indian exams using multi-agent architecture and RAG. - Designed personalized learning support with factual response grounding.	

ResumeIQ – AI Resume Analyzer

React, Claude AI API

- Developed an AI-based resume analyzer with ATS score calculation and feedback generation.

SmartShield AI – UPI Fraud Detection

React, Claude AI API

- Created a real-time UPI fraud detection dashboard for IIT Hyderabad Hackathon.

Aura ATS – Applicant Tracking System

React, Vite

- Built a modern ATS platform for managing and tracking job applications.

CampusGPT – Academic Companion

Flutter, Dart

- Developed an academic assistant application providing study support and campus resources.

Trinetra – AI Disaster Prediction System

FastAPI, LSTM, React, PostgreSQL

- Developed a multi-hazard disaster management platform covering prediction and response systems.
- Presented the project at HackDiwas 3.0.

Certifications & Achievements

- Data Science & Analytics Training – IIT Kanpur Techkriti
- IBM Cybersecurity Virtual Internship – IBMCEP / IBM Developer Skills Network
- Python for Data Science Training
- Coursework in Artificial Intelligence and Data Analytics
- IEEE Workshop – Recent Trends & Technologies
- Participated in UHack 4.0 Hackathon
- Organizer – ENIGMA XII 2025, United College of Engineering and Research
